It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information—may be made publicly available at any time. Abstract: Synoptic water level measurements are a type of measurement where data is collected from many wells over a short period of time. As part of the effort to collect synoptic measurements of the Michindoh Aquifer, the USGS is relying on the participation of property owners from across the region. Those identified as having a selected water well located on their property will be contacted via a postcard. They will then be asked to sign a permission form allowing the USGS to complete groundwater level measurement in their well during Fall 2021 and Spring 2022. This will involve USGS scientists accessing the well and lowering a sanitized electric or steel tape into the well to determine the current water depth below land surface. The measurement that is collected will also be provided to the property owner at the time of collection.

The USGS will attempt to measure approximately 150 to 200 wells within eleven counties in the tri-state region. This large number of measurements over a short period of time will provide the USGS with a snapshot-like understanding of regional water levels. This information will be critical for comprehending the behavior of the entire aquifer system and will be used to model regional groundwater depth.

**NATIONAL INDIAN GAMING
COMMISSION**

**Notice of Approved Class III Tribal
Gaming Ordinances**

AGENCY: National Indian Gaming Commission.

ACTION: Notice.

SUMMARY: The purpose of this notice is to inform the public of Class III tribal gaming ordinances approved by the Chairman of the National Indian Gaming Commission.

DATES: This notice is applicable May 24, 2021.

FOR FURTHER INFORMATION CONTACT: Tearanie McCain, Office of General Counsel at the National Indian Gaming Commission, 202–632–7003, or by facsimile at 202–632–7066 (not toll-free numbers).

SUPPLEMENTARY INFORMATION: The Indian Gaming Regulatory Act (IGRA) 25 U.S.C. 2701 *et seq.*, established the National Indian Gaming Commission (Commission). Section 2710 of IGRA authorizes the Chairman of the Commission to approve Class II and Class III tribal gaming ordinances. Section 2710(d)(2)(B) of IGRA, as implemented by NIGC regulations, 25 CFR 522.8, requires the Chairman to publish, in the **Federal Register**, approved Class III tribal gaming ordinances and the approvals thereof.

IGRA requires all tribal gaming ordinances to contain the same requirements concerning tribes' sole proprietary interest and responsibility for the gaming activity, use of net revenues, annual audits, health and safety, background investigations and licensing of key employees and primary management officials. The Commission, therefore, believes that publication of each ordinance in the **Federal Register** would be redundant and result in unnecessary cost to the Commission.

Thus, the Commission believes that publishing a notice of approved Class III tribal gaming ordinances in the **Federal Register** is sufficient to meet the requirements of 25 U.S.C. 2710(d)(2)(B). Beginning September 30, 2021, the NIGC will publish the notice of approved gaming ordinances quarterly, by March 31, June 30, September 30, and December 31 of each year.

Every approved tribal gaming ordinance, every approved ordinance amendment, and the approval thereof, will be posted on the Commission's website (www.nigc.gov) under General Counsel, Gaming Ordinances within five (5) business days of approval. Also, the Commission will make copies of approved Class III ordinances available to the public upon request. Requests can be made in writing to the Office of General Counsel, National Indian Gaming Commission, Attn: Tearanie McCain, C/O Department of the Interior, 1849 C Street NW, MS #1621, Washington, DC 20240.
